

EcoPure™ EP61 Glass and Surface Cleaner

DESCRIPTION

Highly concentrated glass and surface cleaner that dissolves, suspends, and removes soil from glass, Plexiglas, windows, mirrors, windshields, walls, countertops, cabinets, partitions, light fixtures, stainless steel, chrome, plastic, vinyl, appliances, desks, porcelain, porcelain enamel and other surfaces not harmed by water.

IDEAL FOR USE IN...

Hospitals, schools, food service, shower rooms, hotels, gymnasiums, offices, lunchrooms, jails, fitness centers and virtually every other kind of facility.

PACKAGING:

- Available in the 4 X 1.8 L (Av-mixx) and in 4 X 4 L
- Primary package of EP61 is recyclable as defined by GS-37, CCD-146 and EP114.
- The corrugated carton used to transport this product is recyclable and made from 85% post consumer recycled materials.

SPECIAL FEATURES

- Effective in cold water. Avmor recommends that the product be used with cold water to help save energy used to heat water.
- All environmental, health and safety claims are 3rd party certified
- Concentrated to reduce waste and lower end use costs
- Effective on both oil and water based soils
- No unpleasant ammonia, vinegar, alcohols or glycol ether odours to irritate nose and throat
- Leaves no residue. Helps prevent re-soiling.
- One 1.8L bottle of EP61 concentrate makes 245 ready-to-use bottles when dispensed using Av-mixx dilution control system.
- Colorants used are food grade colorants. Colorants are added to help workers properly identify and differentiate cleaning products and help simplify the training process
- Label is colour coded and uses a numbering system to help identify the product for safety and application purposes

EP61 IS SAFER FOR OUR PEOPLE AND OUR PLANET...

- Contains no alkyl, octyl, and nonyl phenol ethoxylates (NPEs, OPEs, APEs)
